Mission in Christian Education

True education develops the whole person for earthly service and heavenly citizenship. By nurturing both academic competence and spiritual devotion, we are securing our young people in a Christ centered world-view. Our local church ministry acts as a bridge that connects the home, school and church in a unified network of faith.

Faith at the Dinner Table

Turn dinner time into a space for family and faith with these quick questions:

- Where did you see God's goodness and beauty today?
- Can we pray about a challenge you face today?
- What is one thing that you learned today that made you think?

Tips for Parents

- **Reset Routines:** Set consistent bedtime to boost focus and mood.
- **Designate Workspace:** Create a clutter free space with school supplies.
- **Daily Prayer:** Pray over your children before they leave for school.

Academic Highlights

We proudly support and celebrate the accomplishments of all our Northeast and Unity scholars – from those who have successfully advanced to their next grade level, to those pursuing higher degrees, and those venturing into their new careers. Congratulations!
