Health Nugget (from Health Ministries):

“Let our people show that they have a living interest in medical missionary work. Let them prepare themselves for usefulness by studying the books that have been written for our instruction in these lines. These books deserve much more attention and appreciation than they have received. Much that is for the benefit of all to understand has been written for the special purpose of instruction in the principles of health. Those who study and practice these principles will be greatly blessed, both physically and spiritually. An understanding of the philosophy of health will be a safeguard against many of the evils that are continually increasing.”
