

GLOSSARY OF TERMS

The following terms are used when following articles in our Knowledge Base.

Dashboard — The main control panel area. It features a toolbar across the top, a main navigation menu on the left, and a work area.

Editor — The interface for editing posts, pages, directory items, and other post types. Includes a top menu with the Block Inserter, Document Overview, etc.; the content area; and a settings sidebar with Block Settings and Page Settings.

Frame — Use this in place of references to WordPress unless specifically pointing to resources outside of Adventist Connect.

Header — The template part that appears at the top of most pages in any theme. This typically includes the site logo, site title, main navigation, and Call to Action button.

Hero — Often directly below the header, this is a wide image, video, or area that displays a page's title.

All Pages Screen or All Posts Screen — Screens accessible from the dashboard for controlling pages and posts.
