

“For just as the new heavens and the new earth which I make will endure before Me,” declares the Lord, “So your offspring and your name will endure.” “And it shall be from new moon to new moon and from sabbath to sabbath, all mankind will come to bow down before Me,” says the Lord. Isaiah 66:22-23 NCV

Food for Thought

We spend 1/3 of our lives snoozing. The first known alarm clock was used by the Greek philosopher Plato around 375 BC. Best nap length to avoid waking up groggy is 10-20 minutes, or best is 90 minutes to complete an entire sleep cycle. Best time to nap is early afternoon. You’re more likely to snore if your neck is more than 17 inches around. The ideal sleep temperature is 60-67 degrees. Driver fatigue causes at least 249 auto accidents per day and the nations latest average bedtime is Brooklyn, NY 12:07 AM
