

Hello Preschool Families!

Bugs, bugs, bugs. That was our theme for the week as we discussed the different types of insects, some that crawl and some that fly. Our activities included sorting, matching, and counting bugs. The sensory table had faux grass and different species of toy bugs along with some observation lenses to view. We read books such as *The Grouchy Lady Bug*, *Lady Bug- Lady Bug*, *The Icky Sticky Anteater*, and *There Once Was An Old Lady That Swallowed A Fly (Ewwww)*. We received our caterpillars for observing as they begin the metamorphosis process. We have already noted that they have changed in size and became more active since Monday. We discussed the letter "O" and the different sounds it makes along with how our mouth makes the shape as we sound it out. Next week we will transition to gardening or things that grow in the ground.

Thank you to all that were able to attend the Spring Program. It was entertaining as always and keeps me on my toes as I never know what to expect once we get up on stage.

Dates to note on your calendar: May 7th, Mother's Day Cookies and Punch, and May 28th is the last day of school party.

If you have any questions, please feel free to contact me at any time.

Blessings,

Ms. Trudy
