

Hello Preschool Families!

Slow as a turtle or fast as a hare seems to be the best way to describe a day with preschoolers. Speaking of turtles, please check out our adorable artwork located in the hall. This week our class worked on the color green and to learn what two colors make green, we did a little science by mixing blue and yellow water to make green. This was very exciting for the kiddos to see. Then we did the same with paint to create the shell on the turtle artwork. Our Bible story was about the plague of frogs from Exodus 8 which we were able to tie into our green theme. We also began learning the number "1" by working on some tracing and counting worksheets. All of these assignments will go into their binders to come home on the last week of school. It is so fun to see their work from start to finish to see just how much they progress throughout the year. Next week we will work on the color purple and the number "2".

Dates to keep in mind:

October 22- In-school field trip.

October 26-30 Red Ribbon Week Dress Up.

October 29- Harvest Party. There is a sign up sheet for Harvest Party supplies located on the sign in/out clipboard. If you are able to help out, we greatly appreciate it!

If you have any questions, please feel free to reach out to me anytime. Have a wonderful weekend!

Blessings,

Ms. Trudy
