

Hello Preschool Families!

This week our class put our minds into construction mode as we discussed different modes of construction vehicles and also the tools used on the job. One assignment was to paste pictures of tools we would find in a tool box versus items that you would not. We also completed a matching worksheet that we identified as the matching vehicle. Our color of the week was **orange** and to learn what primary colors are used, we again turned to our jars of water and food coloring and also paint pallets. We practiced writing the number 3 and learned a little rhyme to help us remember the steps. We celebrated Cora's 4th birthday and enjoyed some homemade whip cream and fruit provided by Cora that she helped make herself. To finish our week off, we got to go for a spin in a road grader and a dump truck provided by the county. This was definitely the highlight of our week! Next week's curriculum will include the color **brown**, and the number 4.

Because the safety of our students is our top priority, we will be keeping the outside doors locked at all times. We realize this may cause some inconveniences from time to time but want to make sure we are putting as many safety precautions in place as possible. If you are dropping off or picking up your child and no one is available to open the front door, please feel free to call me and I will send someone to open it. Thank you for your patience as I understand it can be frustrating sometimes.

I've included a snack calendar in this weeks folder. If the date listed for your child does not work, please notify me and I will make other arrangements.

Wow, there is a lot of information in this newsletter. If you have any questions at all, please feel free to reach out to me at any time!

Have a blessed weekend!

Ms. Trudy
