NAD SERVICES

Griggs International Academy has been serving NAD schools using online, hybrid, and onsite instructional models for over 30 years. It is our goal to strengthen schools and provide a consistent, accredited framework that supports flexibility while ensuring academic integrity.

- **Centralize academic oversight**
- **Verify teacher credentials**
- **Transcript with integrity**
- **Align with NAD Accreditation**
- **Offer flexibility for local schools**
- **Discount for partner schools**

Online Instruction

Students complete coursework through Griggs online classes delivered asynchronously. Instruction, grading, and curriculum are provided by Griggs, while the local school supports scheduling, supervision, and student success.

Onsite Only Instruction **New!**

Courses are taught fully onsite by the partner school's properly certified and endorsed teachers. Griggs provides academic oversight, transcript management, and accreditation alignment, but does not deliver instruction.

Hybrid Instruction

Students complete a combination of Griggs online courses and onsite instruction. Online courses supplement local staffing needs, while onsite courses are taught by certified teachers and approved for transcript inclusion.

Summer Cohort & Self-Paced Course

Teacher-led, structured summer courses with set start and end dates. Students progress together as a group, allowing for direct instruction, scheduled pacing, and timely credit completion. Students may also choose to take Griggs traditional self-paced courses during the summer.

Supplemental Courses/Services

Electives, Credit Recovery, Modern Languages Challenge Exams

Griggs offers NAD students flexible access to over 60 accredited online courses for credit recovery, acceleration, career exploration, or academic support.

NOTE: Grade 7 & 8 can earn Algebra I and American Sign Language high school credit (extra discount)
