### 21ST CENTURY ACADEMICS

At Metro-East Adventist Christian School, we are committed to providing a 21st-century education that prepares students for success academically, spiritually, and personally. Our school follows the Seventh-day Adventist curriculum, which aligns with the core guidelines established by the North American Division of Education. You can learn more about this curriculum at [www.AdventistEducation.org](http://www.AdventistEducation.org).

We go beyond traditional academics by integrating technology and teaching practical life skills necessary for today's rapidly changing world. From problem-solving and critical thinking to collaboration and digital literacy, our students are equipped with the knowledge and skills they need to thrive in higher education, careers, and life.

MACS also ensures that education is Christ-centered, combining academic excellence with spiritual growth. Every lesson, activity, and interaction reinforces values, faith, and character development, providing students with a solid foundation to live purposeful, meaningful lives.

If your family is ready to invest in your child's academic and spiritual future, or if you know someone who would benefit from a Christ-centered, 21st-century education, we invite you to connect with us. Please contact Kristina Windham / [kwindham@ilcsda.org](mailto:kwindham@ilcsda.org)\* / (618) 365-6440.
