  Field Trip to Lehigh Valley Zoo
- **October 27 @ 1:15-7 pm:**
  Fall Teacher/Parent Conferences **(Required)**
- **November 2:**
  Fall School pictures
  (Students wear uniforms)

Dear Parents and Guardians,

At the end of this week, we will complete the first quarter of the 2026-2027 school year! The nine weeks have flown by, and your children have grown and learned so much. Thank you again for partnering with us in your child's educational journey.

Fall parent-teacher conferences will be held on October 27, and attendance is required. Your child's teacher will send a link this coming week so you can schedule a conference. **Please make this a priority!**

As the weather cools, I'm asking for your cooperation with our uniform policy. An approved black, full-zip fleece jacket or sweater is available for purchase from FlynnO'Hara, our uniform store. Students may also wear zip-up jackets in school colors: navy or plain black, with no designs. **Students should not wear jackets in other colors to school.** This policy does not apply to winter coats. We plan to add another jacket option for students to purchase soon. Thank you for your cooperation!

Please enjoy the information and pictures on the following pages, featuring activities your children have participated in.

Feel free to contact me if you have any questions or concerns.

Sincerely,
Mrs. Elbie Piotrowski

SPORTS FEST @ BMA
GRADES 5-8

Each year, our Grade 5-8 students have the privilege of participating in a Sports Fest hosted by Blue Mountain Academy.

Our students represented WCS proudly and had a lot of fun!

The students participated in soccer and volleyball.

INTERNATIONAL FOOD FAIR
CELEBRATING OUR CULTURES

What are learning?

PreK

Science - Habitats (terrariums), vegetation (planting lima beans), and life cycles of animals and insects (frogs and butterflies).
ELA - Phonemic sounds and letter formation.
Math - Numbers to sixteen using calendar counting and manipulatives.

Leading singing during Friday worship

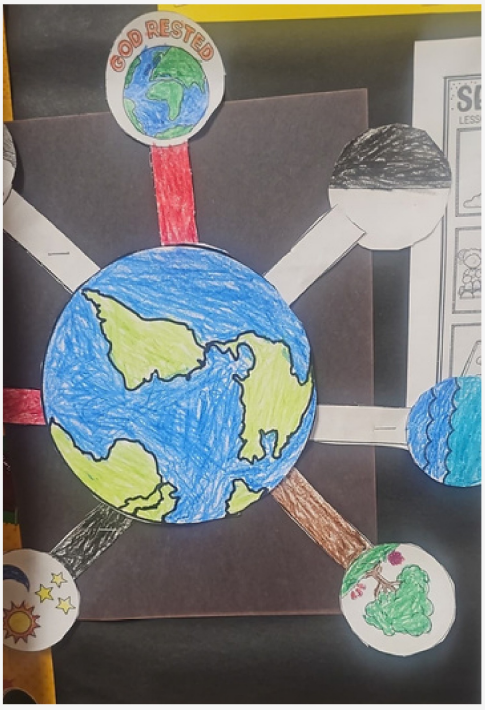

What are we learning?

K and 1st Grade

ELA:
Adjectives and sequencing.
Math:
Working on double facts, which leads to doubles plus 1 facts for 1st Grade.
Science:
Growing tadpoles, but we are in rotation for Social Studies and not actively studying Science.
Social Studies:
Comparing the past with present times, what are the differences and similarities.
Bible:
We finished our Creation cycle with a project. We are currently studying about the Fall and God's promise to us.

What are we learning?

Grades 2-4 and Math

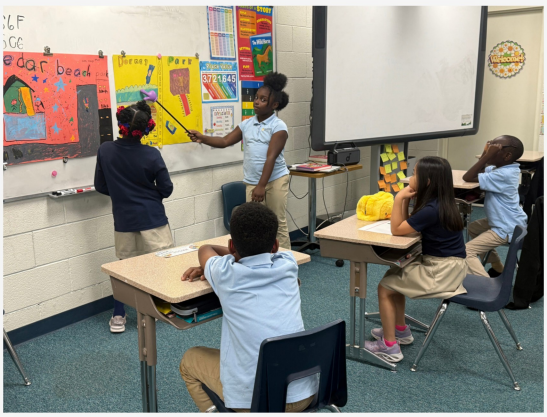

Grades 2-4:

Math - Strengthening skills in addition, subtraction and multiplication using strategies such as making a ten, doubles, arrays, equal groups, place value, regrouping and estimating.

ELA - Practicing identifying the main idea and key details, finding reasons and evidence, using plural nouns and reporting on a topic.

2nd Grade is reading 'On The Same Day in March' and 3rd and 4th Graders are reading 'The Chocolate Pilot'.

Bible - Students are learning about Noah's faith and obedience and how God kept His promise to save Noah and his family.

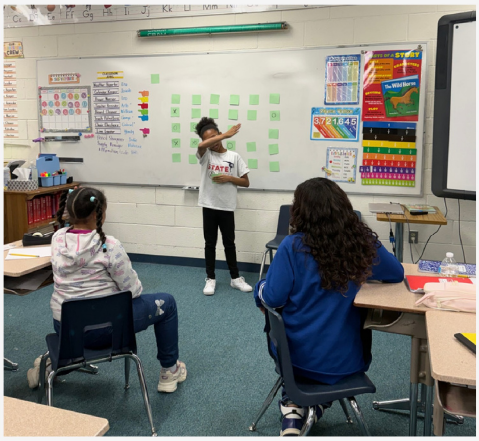

Grade 5-8:

Students are working with number properties, numerical and algebraic expressions, rational numbers, angles and triangles.

The students are learning how to find the area of rectangles, squares, triangles and circles.

What are we learning?
Science

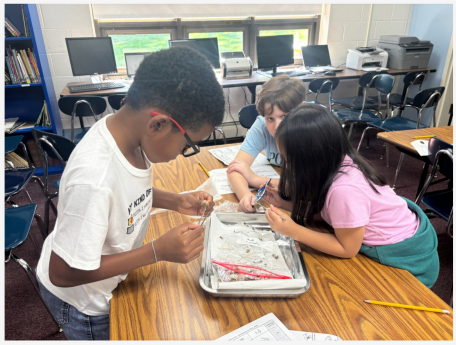

Science - Grades 2-4:
The students have been learning about animal vertebrate groups. They learned how the different beak types help birds eat certain types of food.
Students are currently studying about animal life cycles.

Students dissected owl pellets to determine what type of prey the owl ate.

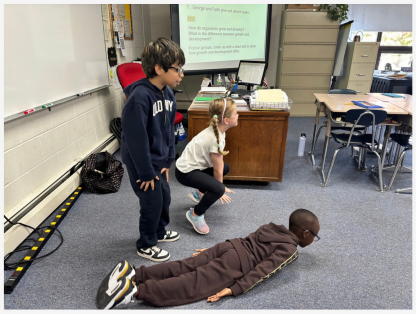

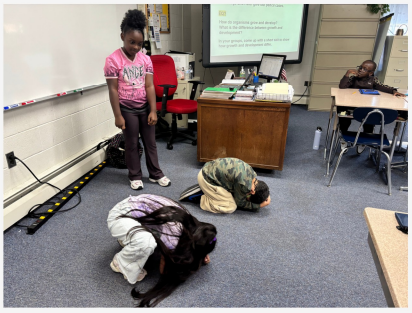

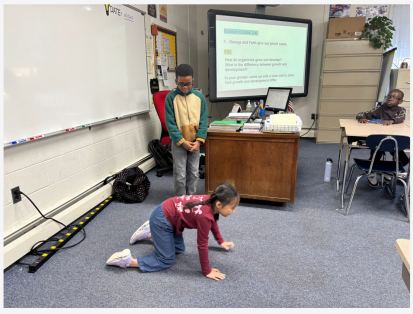

Students act out the difference between growth and development.

What are we learning?
Grades 5-8

Science:
Invertebrate research.
Each student was assigned a specific Invertebrate phylum. They did research on the phylum and created Google slides with a handout. They will teach their classmates about the phylum.
Students created a three-dimensional model representative of one of the animals in the phylum.

ELA:
Students have been working on writing assignments and studying nouns.
They are reading their anchor texts "Lewis and Clark" and "Shipwrecked".

Bible:
We finished learning about 'Salvation' and are currently studying how God calls people with a message from Him - the life of Elijah.

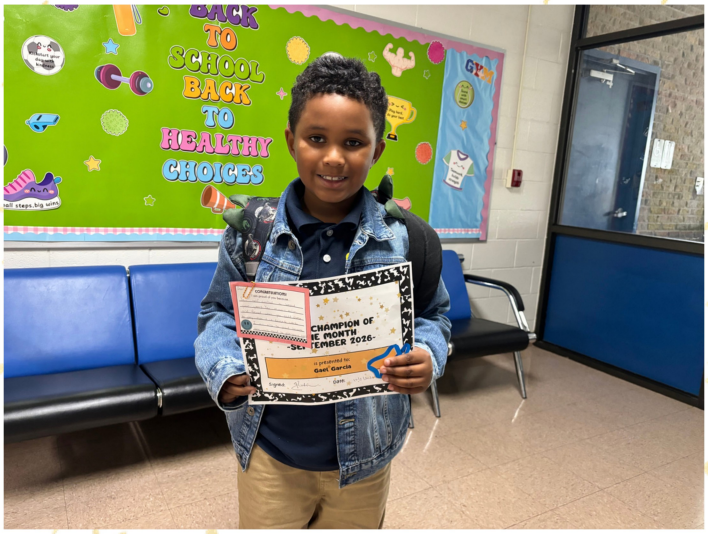

Art:
Using Fall leaves for leaf printing.

September Champions of the Month

CONGRATULATIONS

PreK:
Norah Lee

K and 1st Grade:
Gael Garcia

Grades 2-4:
Yendy Estime

Grades 5-8:
Crislenny Polanco

Fire Safety with Whitehall Fire Department
