Why should I attend?

America is changing.

The world is reaching a climax which will involve you.
But there is hope!

In this series of talks, you will hear the inspiring story of how an immigrant from Iran discovered and fell in love with the American dream, as well as his powerful journey to encountering Christ. You will also explore evidence of God's divine intervention woven into the founding history of America and its destiny for greatness among the nations of the world. Yet intertwined with this legacy is a solemn prophetic warning—a foretelling of the nation's eventual downfall and demise.
